

Paragon Space

Case Study

Office furniture install for Paragon Space who design & manufacture modular buildings

The job was based on a successful expansion of Paragon Space into new offices and a factory extension. They are a smaller local company who have been steadily increasing success over the last few years. They needed a new office fit out for their staff and the owner of the company.

The solution involved providing CAD planned layouts, agreeing a colour scheme and range of furniture, and making sure we could add to the office as time moved on and they continued to grow successfully. The end result was the contract was awarded, and we installed on time, and on budget. They also bought some more furniture after installation which was ordered and installed in 48 hours. They appreciated the fast efficient service.

As a result, we are now in talks to become a furniture supplier on behalf of Paragon Space to all of their clients fulfilling their needs as we did with Paragon Space.

Everything was first class from our initial enquiry through to the delivery and installation of our desks etc. We are very pleased with our new office furniture and will definitely be using them again for any of our office furniture requirements

Christine Metcalf - Paragon Space

Customer:

Challenge:

Supply office furniture on time and on budget.

Solution:

Face to face meeting, CAD planning and colour scheme, office fit out.
